

KIDaccount: A Complete Customizable Solution

KIDaccount helps to improve student outcomes, enhance accountability, and streamline school operations. As a completely integrated daily school safety solution, KIDaccount's modular system enables schools to easily account for every student, staff, and visitor — all day, every day. The web-based application integrates with most existing school hardware, ensuring ease of use for all users. Driven by a culture of research, development, and customer service, KIDaccount provides schools with the utmost expertise in daily safety and security.

Why Choose KIDaccount?

- We have 20+ years in the K-12 industry and 40+ years of combined experience in software system development.
- We work with large districts like Los Angeles USD with over 700,000 students as well as small independent schools with only a couple hundred students.
- In a single week, we manage hundreds of thousands of student dismissals and all the daily changes associated with each dismissal.

KIDaccount's Easy-to-Use School Safety & Accountability System

Classroom Communication

Spend less time managing dismissals and more time teaching with instant dismissal change communication between the front office and classroom and the option to release students directly from the classroom or holding area.

Carline Management

KIDaccount's automated carline system helps eliminate the chaos and allows for a safer and more efficient dismissal process with 100% accountability and easy-to-use human verification tools.

Bus & Transportation

Create a safe and efficient environment with a daily bus manifest and seamless communication of daily transportation changes. With bus ridership, scan students on the bus fast and accurately with 100% accountability.

Visitor Management

A complete visitor management solution featuring multi-campus attendance tracking and cross-reference sex offense data. Key features include national sex offense screening and sign-in/out for students, staff, and parents.

After School Programs

Easily manage after-school student sign-in and out, track attendance, and account for student dismissal safety with our integrated after-school solution.

Drills & Reunification

Be prepared with our simple and easy-to-use emergency management solution featuring a first responder's dashboard, fast roll call, and more reunification tools!

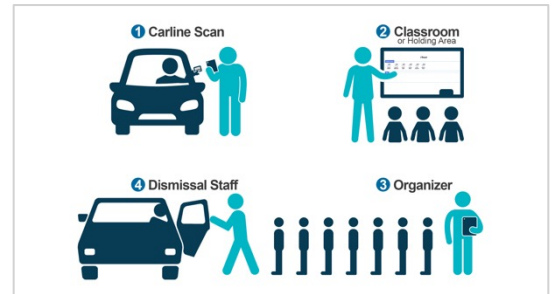

HallPass Management

Create and manage hall passes, locate student whereabouts, and download comprehensive accountability reports.

Classroom Communication

KIDaccount’s classroom communication module enables educators to spend less time managing dismissals and more time teaching. Instant dismissal change communication from the front office to the teacher, and the ability to release students directly from the classroom, allow teachers gain up to 30 minutes of instruction time per day.

What Makes KIDaccount Different?

- Simple and easy-to-use
- Instantly create dismissal schedules
- Quickly make daily dismissal changes
- Changes are shared throughout the system
- Classroom display shows real-time changes
- Log Report tracks daily changes from parents
- Minimize classroom disruptions
- Reduce stress and increase accountability

Carline Management

Your release staff will love our secure and automated carline system! KIDaccount helps eliminate the chaos and allows for a safer and more efficient dismissal process with 100% accountability and easy-to-use human verification tools.

4-Point Student Release System

1 Carline Scan

Scan & approve pick-up person

2 Classroom or Holding Area

Release students from classroom or holding area

3 Organizer

Que students for dismissal

4 Dismissal Staff

Dismiss students to their cars

How Does it Work?

Scan KIDaccount ID cards

Staff scans cards of the pick-up people through their car window.

Select an Approved Pick-Up Person

A list of approved pick-up people will be displayed and valid identification will be requested. Selecting an unapproved pickup person will automatically alert administration and security via text message.

Student Names are Queued up for Release & Organizer Assembles the Students

The organizer will position students in appropriate order. The student's names will also be highlighted on the teacher's page to signify they have safely arrived in the dismissal line.

Students are Dismissed

Once students are organized and the car line is ready, the dismissal staff will release each student to their car.

Carline Report

Activity is recorded for reporting that shows the student's name, who they were dismissed by, the pick-up person's full name, and the exact time dismissed.

Bus & Transportation

KIDaccount’s bus and transportation module enables you to create a **safe** and **efficient** environment and offers daily bus manifest and seamless communication of daily transportation changes.

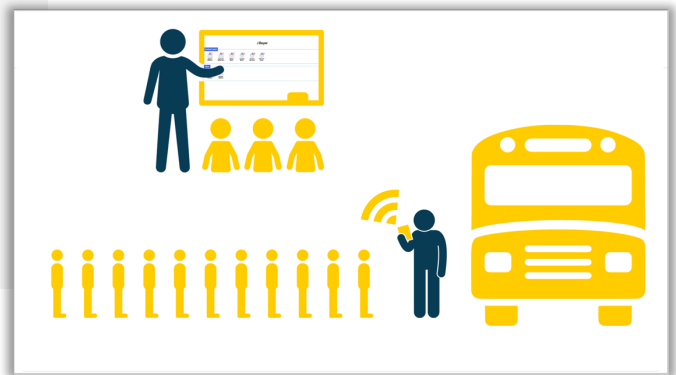

Bus Manifest & Ridership

Manifest - Know Who is on the Bus

The daily bus manifest allows bus drivers to know exactly who is on the bus based on daily dismissal changes to ensure all students are accounted for.

Ridership - Scan KIDaccount ID cards

Fast and accurately scan students on the bus with 100% accountability.

Visitor Management

KIDaccount’s complete visitor management solution manages visitors, parents, staff and students. Service offerings include an instant national sex offense screening and badge printing, with optional feature add-ons such as multi-campus attendance tracking, student and staff sign in and out, and much more.

Secure Visitor Management Kiosk

Visitor signs in using the Kiosk by entering their full name and the reason they are visiting.

Administration will Accept or Deny

Based on sex offense status, the visitor will either be accepted or denied to enter the school.

Approved Visitor Badge

If approved, the office admin will print the visitor badge. The badge may be scanned for instant sign out.

After School Programs

Easily manage student safety in after school programs. With KIDaccount’s after school solution, efficiently account for all students with digital roll call, digital dismissal, and comprehensive reports.

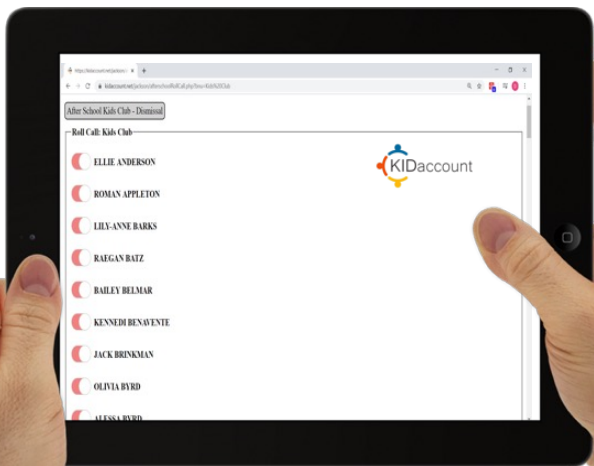

After School Accountability

Scheduling students to attend after school programs is simple and efficient.

Digital roll call allows you to mark students present in after school programs.

Digital dismissal to authorized caregivers provides added safety, tracking, and peace of mind.

Accurate Roll Call & Dismissal
